

Creation

by Wayne Goff

We are constantly bombarded publicly by the evolutionary theory promoted as “**fact**,” yet when we study the evidence for creation versus evolution, it is really no contest. Creation wins hands down!

The design all around the universe screams for a Designer. The universe is estimated to be 20 billion light years in diameter, with 100 billion galaxies, and an estimated 25 sextillion stars. Long before we knew that, God told Abraham that the stars were innumerable (Gen. 15:5). So we know man is limited in his dwelling places, and God told us that 2,000 years ago as well! *“And He has made from one blood every nation of men to dwell on all the face of the earth, and has determined their preappointed times and the boundaries of their dwellings”* (Acts 17:26). In all this vast universe, earth alone is fitted for man’s dwelling. Coincidence? I think not.

Evolution requires millions of years, eternal matter, expanding matter (inflation), spontaneous generation, and transitions from one kind to another to be true -- none of which can be proven by actual science!

Consequently, we are not surprised to find numerous “*hoaxes*” being perpetrated on an unsuspecting society -- peppered moths, Darwin’s finches, and horse evolution, to name a few.

We live on a young earth that can be no more than 10,000 years old. It is remarkable that science says it has been proven that the earth is millions of years old. Circular reasoning between the fossil record and earth strata leads people to be confused, not convinced.

Finally, we study numerous quotes from evolutionists themselves who admit that the proof for evolution is woefully lacking, yet these same scientists refuse to dismiss their theory.

Let us end this article with a quote from the evolutionist Peter Coles, who holds a doctorate in astrophysics: *“In a way, we are as confused as ever about how the universe began. But perhaps now we are confused on a higher level and for better reasons.”*

Or perhaps it is a case of *“Professing themselves to be wise, they became fools”!* Think about it.
