

## God's Creation: Digging For Answers

by Wayne Goff

It takes much more faith to believe in evolution than it does to believe in creation. If you think not, then come to our vacation Bible study on the subject. We will give you quotes from evolutionists which show you that they do not have scientific evidence to back up their theories, but that they base much of their teaching on assumptions and suppositions!

For example, which is more difficult to believe: (1) Life from non-life or (2) Life from Eternal Life? Do you think you were made in the image of God, or do you think you came from a single cell which evolved over millions of years by sheer accident?

This study will give you facts and evidence for Creation. Come hear the other side?!
